

# *The Straub Die Record Book*

## Part I: 1880 - 1883

A comprehensive and massively detailed notebook maintained from January 2, 1880 through December 29, 1886 by A.W. Straub, Foreman of the Die Makers Room at the U.S. Mint. The book contains a daily record of the number of obverse and reverse dies of each denomination released by the Die Makers Room to the actual coin press operators in each month of each year, including the actual date of each die's release to the coiners. From 1881 on, every die was numbered (obverse and reverse of each denomination with separate number sequences). Each such die is listed, with its serial number, in the record book. All Proof dies of each year were separately listed on a separate page at the end of the regular coin die listings for each year, again including obverse and reverse dies separately.

This daily record, scrupulously maintained by Straub, appears to be the only surviving such reference source of the actual day-to-day working operations of the die makers and coiners, and is an invaluable record in that regard. As a single outstanding example of the value of the book the listing of Proof coins for the year 1884 begins with the Proof Trade Dollar of 1884, released to the coiner on January 3, 1884, thus proving that the 1884 Proof Trade Dollar was legitimately struck at the Mint.

A handwritten note on a ledger page, likely a summary or index. The text is written in cursive and includes the word "Total" followed by the number "763." which is underlined. Below this, the name "A.W. Straub" is written, followed by "Foreman Die Makers Room". The date "Dec 31st 1884." is written at the bottom, with a small "11" written below the word "Room".

Total 763.  
A.W. Straub
